

# SAVE MONEY ON THE LONG-TERM CIBES IS ULTRA ENERGY EFFICIENT

## TRADITIONAL TRACTION LIFT

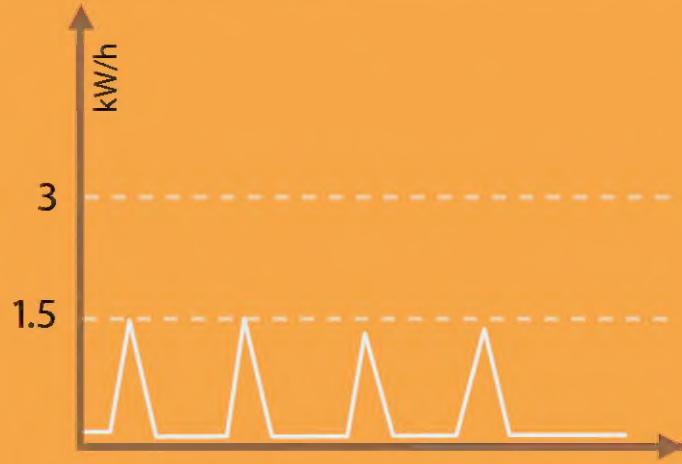

VS.

## CIBES PLATFORM LIFT

### ENERGY CONSUMPTION

Traditional Traction Lifts are always ON!  
They use power even when you are sleeping, at work or on vacation

**Cibes** Platform Lifts go into SLEEP mode when they are not being used AND use less power while in use due to their screw-drive technology

### MOTOR USED

#### 3 - 5 kW motor

When the motor is going full speed, it consumes a LOT of energy

#### 1.5 kW motor

Our unique EcoSilent drive is designed to save energy AND money

### ENERGY GRADE

**Cibes is A-rated for Energy Efficiency**

**What does that mean?**

We use about as much electricity as a hair dryer...

**CIBES LIFT  
SPACE SAVING SOLUTIONS**
